

ALSOWISE®

Language | Reading | Communication

User's Name: Govindan JM

Programme: ALSOWISE® Masters Programme

SUMMARY PERFORMANCE REPORT

Below is our assessment of how **you** performed in the ALSOWISE® Masters Programme, a course that you recently completed. Our goal at ALSOWISE® is to provide you with more than just a performance score on the curriculum. To that end, we have included feedback on **your** performance compared to that of the other users who have completed the same programme.

The course covers many elements of English grammar, vocabulary, language usage, and reading skills, all designed to drive proficiency in and confidence with the language.

Definitions

Lesson Quiz: Questions asked from time to time during a Lesson to check for understanding of the topic.

Assessment Quiz: A comprehensive quiz on a specific topic taken after the completion of each lesson.

Quintile: 5 groups, each containing approximately 20% of the population; Quintile 1 is the lowest performing group while Quintile 5 is the highest performing group.

Diagnostic Test : The original evaluation of **your** English language proficiency before starting the programme.

Communication

Finally we tested your Communication skill in two important areas: Face-To-Face Engagement and Written Communication. We did this through a series of 5 Lessons and Assessment Quizzes.

Face-To-Face Communication

Topic	Score	Peer Quintile
Face to Face Engagement 1	0%	NA
Face to Face Engagement 2	20%	NA
Total	10%	NA

The primary purpose of the Face-To-Face Communication Modules is to test your skills in speaking directly with a customer, manager, or colleague. You were able to identify the correct answer **10%** of the time and thus have considerable difficulty with verbal communication. We strongly recommend that you redo the 2 Lessons and 2 Assessment Quizzes.

Written Communication

Topic	Score	Peer Quintile
Writing Correctly	3.845%	NA
Writing Clearly	21.43%	NA
Writing Compellingly	30%	NA
Total	18.43%	NA

The primary purpose of the Written Communication Modules is to test your skills in communicating effectively in a non-verbal environment, especially when preparing documents, emails and office memos. You were able to identify the correct response **18.43%** of the time and thus have considerable difficulty with written communication. We strongly recommend that you redo the 3 Lessons and 3 Assessment Quizzes.

We hope this report helped you gain a proper understanding of your results.
