SUMMARY PERFORMANCE REPORT

Below is our assessment of how **you** performed in the ALSOWISE® Master Lites Programme, a course that you recently completed. Our goal at ALSOWISE® is to provide you with more than just a performance score on the curriculum. To that end, we have included feedback on **your** performance compared to that of the other users who have completed the same programme.

The course covers many elements of English grammar, vocabulary, language usage, and reading skills, all designed to drive proficiency in and confidence with the language.

Readalongs

Please find your ReadAlong scores below:

Title	Score	Peer Quintile
Total	NA	NA

The primary purpose of the ReadAlongs section is to test your reading skills in the event of 'unaided recall', wherein you cannot refer to the passage and must learn to automatically retain as much information as possible in the process of reading an essay or excerpt.

Alsowise was unable to assess unaided recall because You did not complete any of the Readalong opportunities presented. Please remember that reading is a critical skill that affects many competencies including self-learning, decision making and knowledge transformation.

Communication

Finally we tested your Communication skill in two important areas: Face-To-Face Engagement and Written Communication. We did this through a series of 5 Lessons and Assessment Quizzes.

Face-To-Face Communication

Topic	Score	Peer Quintile
Total	NA	NA

Written Communication

Topic	Score	Peer Quintile

We hope this report helped you gain a proper understanding of your results.
